

## Contents

<i>Sagach V. F., Bazilyuk O. V., Kotsyuruba A. V., Buchanevich A. M.</i> Disturbance of Endothelium-Dependent Vascular Responses, Arginase and NO-Synthase atways of L-arginine Metabolism at Spontaneously Hypertensive Rats .....	3
<i>Voronich-Semchenko N. N.</i> Peroxide Oxygenation Lipids Condition and Activity of Antioxygenation System in Blood Serum and Tissues of Stomach, Brain under the Condition of the Gastro-intestinal Tract .....	14
<i>Radchenko O. M.</i> The Correlations Between the Immunis Organs, the Adrenals and the Blood Cells by the Different Types of Adaptation Reactions in an Experiment .....	34
<i>Krasilnikova O. A., [Natarova J. A.], Babenko N. A.</i> Age Peculiarities of Thyroxine influences on Sphingosine and Phosphoinositides Synthesis in Rat Liver .....	26
<i>Litvinova L. B.</i> Sex Steroids in the Female Puberty initiation .....	33
<i>Dzerzhinsky M. E., Ptitsa A. N., Varenjuk I. M.</i> Effects of Beta-adrenoreceptors Stimulation and Blockade on the Electrical Activity of Hypothalamic Arcuate Nucleus and Gonadal Morphophysiology in Birds .....	38
<i>Klimenko N. A., Shevchenko A. N.</i> Role of Lysosomal Proteinases in the Blood Reactions During inflammation .....	45
<i>Rogovoy Yu. E., Mislitskiy V. F., Filipova L. O., Shapovalov V. P., Magalyas M. V., Maykan R. I., Chortik Yu. B.</i> The influence of the Enzyme Complex Wobe-Mugos E on Kidney Functional and Biochemical State, including their Fibrinolytic and Proteolytic Activities in Polyuric Stage of Sublimata Nephropathia .....	51
<i>Goryn O. V., Kurgalyuk N. M.</i> Increasing of Rat Resistance to Action of Low Doses of Ionizing Irradiation by Means of $\alpha$ -Ketoglutarate Na .....	57
<i>Gnatuk M. S., Slyvka Yu. I., Gudyma A. A.</i> Effect of Magneto Laser Irradiation on Cardial Muscule During Norephynephrine Cardiodystrophy and Food Deprivation .....	67
<i>Boyarchuk H. D., Koval S. B., Lunina N. V.</i> Changes in Lysosomal Apparatus of Neutrophils under Conditions of Dic .....	72
<i>Yukalo V. G., Luhovyy B. L.</i> The Generation of Antihypertensive Peptides from $\beta$ -Casein after Modeling Proteolysis .....	78
<i>Babych N. O., Antonyak H. L., [Tymochko M. F.], Snitynsky V. V.</i> The influence of Thyroxine on Activity of Energy Metabolism and Antioxidative Systems of Piglet Neutrophils .....	84
<b>Chronicles</b> .....	92
<b>Jubilee dates</b>	
V. P. Mischenko .....	96
