V.F. Sagach, A.V. Kotsuruba, O.V. Basilyuk, E.F. Meged, O.M. Buchanevich, N.M. Gulaya, L.G. Stepanenko Arginase inhibitors as a new class of antihypertension drugs: action of urea on oxidative metabolism of lipids at chronic hypertension	3
P.A. Nerush, E.A. Makii, A.G. Rodinsky Age features of functioning of nervous - muscular system of rats in conditions hyperthyroidism	12
I.A. Kruglikov, L.P. Shutov, V.O. Shishkin, O.P. Kostyuk, E.S. Potapenko, N.V. Voitenko Intracellular mechanisms of changes in the functioning of rat sensory neurones with streptozotocin-induced diabetes mellitus	18
O.A. Gonchar, K.V. Rozova, M.M. Seredenko Effect of K ⁺ -channel openers on morphofunctional lysosomes state under acute hypoxic hypoxia	26
R.K. Lokteva, S.S. Kostenko, I.A. Kanaykina, V.A. Tsybenko The interconnection of human psycho-somato-visceral functions	31
M.I. Lysiany, O.V. Markova, L.M. Belska Modelling of rats experimental allergic encephalomyelitis and its correction with allogenic brain cells	37
O.Y. Andruchov, V.F. Sagach The mechanism of nitric oxide effects on the smooth muscle contractile apparatus CA ²⁺ -sensitivity of force development	41
T.M. Mishunina, O.V. Kalinichenko Specific gaba binding in the adrenals, and blood and adrenal content of catecholamines under stress in intact rats and rats with inhibition of functional activity of hypothalamo-pituitary-adrenocortical axis	47
I.F. Labunets Age changes of circadian and circannual fluctuations of function and cellularity of the lymphoid organs in animals: a possible relation to thymic factors	54
T.Yu. Gots The influence of ozone and toxic airborne particulate matter on airways in mice	63
K.G. Seleznyov, E.F. Barinov, K.V. Jelski, S.V. Zyablitsev Content of interleukin 2 and interleukin 4 in the blood in sinusite	69
L.M. Bykova, G.L. Sinelnikova, B.V. Oliynik Course of delayed – type hypersensitivity and graft versus host reactions under the influence of spleen nonpeptide factor	74
N.Ya. Karbashevskaya, S.A. Oliynik, Yu.N. Bilokin, V.A. Baraboi, Yu.P. Hgrinevich The influence of new Ukrainian plant drug «Polyphytolom» on the oxidative homeostasis of rats at hypergravitation	77
N.A. Bobko Cardiovascular system work in dispatchers of electric networks under 12-hour shifts	82
L.M. Kozak, L.G. Korobeynikova, I.D. Glazyrin, M.M. Seredenko Physical development and psychophysiological functions forming in children of young school age	87
V.V. Vereshchaka The state of free-radical oxydation of skin at disturbanas in microcirculation	93

Reviews

M.V. Makarenko Role of individual – typological properties of higher nervous activity at professional selection	97
