<i>V.F. Sagach, G.L. Vavilova, N.A. Strutinskaya, O.V. Akopova</i> Effect of inductors and inhibitors of the mitochondrial permeability transition pore (mpt) on its opening and release of unidentified mitochondrial factor . . . . .	3
<i>O.Yu. Harmatina, A.G. Portnychenko, O.O. Moybenko, A.V. Kotsiuruba, O.M. Bukhanevich</i> Expression of inos and nos activities in right and left ventricles of isolated rat heart during ischemia and reperfusion . . . . .	13
<i>T. V. Martynova, I. N. Alexeyeva, T. M. Bryzgina, L. A. Aleksyuk, V. S. Sukhina</i> Effect of inhibitors of cyclooxygenase and lipoxygenase pathways of metabolism of arachidonic acid on the development and suppression of the immune response in mice . . . . .	18
<i>M. V. Kopanitsa</i> Action of a phenazepam metabolite, 2-amino-5-bromo-2'-chlorobenzophenone, on glycine and nmda receptors of rat hippocampal pyramidal neurones . . . . .	23
<i>N. V. Makarenko, V. S. Lisogub, L. I. Yuchimenko</i> Heart rhythm of students with different individual - typological characteristics of the higher nervous activity at examination stress . . . .	28
<i>Seredenko M.M., Ribalchenko V.K., Govorukha T.M., Nazarenko A.I., Fil G.B., Baban V.M.</i> N-oxidized pyridine derivatives influence the oxygen-dependent processes in the liver tissue of white rats . . . . .	34
<i>E.V.Kolotushkina, M.G.Moldavan, K.Yu.Voronin, G.G.Skibo</i> The influence of hericium erinaceus extract on myelination process in vitro . . . . .	38
<i>N.R. Kasyanchuk, V.K. Tishenko, A.G. Tsypkun</i> Daily rhythms of concentrations of cortisol and serotonin in children with chronic viral hepatitis . . . . .	46
<i>V.M. Shevereva</i> Cortical-subcortical mechanisms of emotional behaviour and vegetative functions in young white rats . . . . .	52
<i>T. Bondarenro</i> Peculiarities of testosterone influence on activity of prostate cells' proteins synthesis under conditions of hypo- and hyperprolactinemia . . . . .	61
<i>S.B. Koval</i> Morpho-functional changes in circulating neutrophils at physiological and complicated pregnancy . . . . .	67
<i>Inoyatov F.Sh.</i> Sexual features of effects of aerogen toxicants on reversing toxicity function of the liver in rats . . . . .	76
<i>Shidlovska T.A., Ovsyanik K.V. Summary</i> Indices of fast acoustic adaptation in unilateral recording of short latent acoustic evoked potentials in the persons with normal hearing but suffered from chronic functional voice disturbances . . . . .	81
<i>N.A. Temuryants, E.N. Chuyan, N.P. Verko, O.B. Moskovchuk, E.N. Tumanyants, E.N. Shishko, V.A. Minko, E.E. Kurtseitova</i> Limitation of hypokinetic stress by electromagnetic fields of low intensity . . . . .	87
<i>B.I. Aksentiychuk</i> Relations between uricemia and some parameters of psycho-physiological functions in liquidators of tchernobyl accident . . . . .	94
<i>T.Yu. Voznesenska, T.V.Blashkiv</i> The role of nitric oxide in meiotic maturation of the murine oocytes in vitro . . . . .	100
<i>O.O. Korkushko</i> Effects of infra-red lazer irradiation on the arterial pressure level in liquidators of tchernobyl accident . . . . .	104
