

Contents

<i>I. S. Magura</i> Cerebral ischemia-hypoxia: biophysics of neurodegeneration and neuroprotection	7
<i>V.A. Beresovsky</i> Specific and non-specific electromagnetic irradiation with biological (items) objects	13
<i>L.A. Pirig, V.A. Berezovskii, I.A. Dudar</i> The infrared sweat secretion stimulation as a means to homeostasis correction in a kidney spoil patients	25
<i>P.P. Chayalo, B.P. Grubnyk</i> Characteristic of indices of biological oxidation of carbohydrates and krebs cycle under the therapeutical influence of electromagnetic radiation of mm-range in a human organism	30
<i>S.A. Gulyar, Yu.P. Limansky</i> Functional system of regulation of electromagnetic balance of organism: mechanisms of primary reception of electromagnetic waves of optical range	35
<i>R.B. Strelkov</i> Inh application - the interrupted normobaric hypoxia stimulation with the practically sane people	45
<i>V.S. Astakhova, L.M. Panchenko</i> The artificial mountain air influence on immune system state of orthopedic and traumatologic patients with immunodepression	50
<i>A. Bulakhov, A.Nikolaeva, A. Dotsenko, G. Yupatov</i> Relaxation of the smooth muscles of bronchus under hypobaric hypoxia	53
<i>I.G. Litovka, O.P. Berezovska</i> The oxygen deprivation as the osteogenesis initiator under the hypokinesia	58
<i>P.A. Kaliman, K.V. Strel'chenko, T.V. Barannik, I.V. Nikitchenko, N. N. Inshina, O.V. Pavichenko, V.P. Philimonenko</i> Metabolism of heme and hemoproteins and some indicies of antioxidant system in erythrocytes and rat tissues under anemia, caused by phenylhydrazine administration	66
<i>A.A.Vladimirov, N.I.Tofan</i> The l-arginin/no system partisipation in cardiovascular diseases prevention and treatment in pregnant women	73
<i>V.A. Berezovskiy, H.G. Chaka, P.V. Lakhin</i> Influence of oxygen deprivation on situation osteodistrofia development	79
<i>L.L.Chebotariova, G.E.Chebotariov</i> Use of the low-power electromagnetic therapy in complex treatment of the diabetic polyneuropaties	85
<i>V.I. Luzin, A. P. Pohvalitij, S. L. Kucherenko, C. P. Berezhnij</i> Volumetric-combinative electromagnetic fields influence on the chemical generative bone composition under the ceramic hydroxilapatite defective plastics	91
<i>E.A.Romodanova, T.S.Dyubko, T.F.Morozova, A.D.Roshal, V.B.Distanov, Yu.A.Gurkalenko</i> Low-intensive laser irradiation influence on protein molecule structure and properties under non-specific energy absorbance	96
<i>V.A. Lopata, V.A. Berezovskiy, M.I. Levashov, V.M. Kienko</i> Classification and review of technical devices for hypoxitherapy	100
<i>L.A. Gvozdenko, I.N. Cherednichenko</i> Hygienic evaluation of power load formed by optical radiation of natural and artificial sources	106
<i>Yu.V. Mitin, Yu.V. Shevtchuk, T.S. Bryusgina</i> Lipid complex in subpalatine tonsils in normal state and pathology	111
<i>N.V. Pasechnikova</i> Laser energy influence on eye fundus structures	114
<i>S. Ye. Kazakova, O. A. Toporkova, V. G. Pin'kas, I. Yu. Vatanskaya</i> Immune disturbances in chornobyl aps – after – affects liquidators who had insult in their past histories	120
