V.F. Sagach, M.N. Tkachenko In the foreground of fundamental investigations. The 50th anniversary of "Fiziologichnyi Zhurnal"	5
A.I. Bondarenko, V.F. Sagach Attenuation of acetylcholine-induced hyperpolarization of aortic endothelial cells in rats fed by high-salt diet and effect of enalapril	13
I.V. Stepanova, P.G. Kostyuk, E.P. Kostyuk Dynamic interaction between plasma membrane structures and intracellular calcium stores in drg neurons	19
T. Kukoba, A. Shysh, A.A. Moibenko, A. Kotsjuruba, O. Kharchenko The effects of omega-3 polyunsaturated fatty acids on lipid peroxidation	26
A.Y. Boguslavskiy, A.V. Dmitrieva, V.F. Sagach The influence of no on the efficiency of oxygen usage by working skeletal muscle under its fatigue	33
Shapoval L.N., Sagach V.F., Pobegailo L.S., Stepanenko L.G., Yermolinska N.V. Role of nitric oxide in effects of intramedullary injected gaba on blood circulation	43
R.M. Lazarenko, N.Ch. Pogorela, Y.M. Shuba The ATP dependence of volume sensitive chloride current, ICl_{swell} in LNCaP human prostate cancer cells	51
O.V. Kopach, I.A. Kruglikov, N.V. Voitenko, N.V. Fedirko Thapsigargin-sensitive and insensitive intracellular Ca^{2+} stores in rat submandibular salivary gland acinar cells	62
V.E. Dosenko, V.Yu. Zagoriy, Ya.M. Lutay, A.N. Parkhomenko, A.A. Moibenko T ⁻⁷⁸⁶ >C promoter allelic polymorphism of endothelial NO-synthase gene as genetic predictor of acute coronary syndrome	72
I.F. Labunets Age-related peculiarities of thymus and adrenal cortex function in mice immunized by t-dependent antigen	77
G.I. Kokoshchuk, I.G. Kushnir Influence of steady-state darkness on circadian rhythm excretory activity of the kidney.	84
A. Sklyarov Y. Mandryk Gastric secretion and mucosal blood flow during simultaneous inhibition of M1-cholinergic receptors and L-Ca ²⁺ -channels in anaesthetized rats	88
V.A. Berezovskii, P.V. Lachin, I.G. Litovka, S.L. Safonov, V.A. Bezchasna, H.G. Chaka The hypokinesia-simulating method for rats and preventing its negative effects	95
I.N. Pishel, L.N. Pashynyan, G.M. Butenko Role of the genetic factors in osteoporosis development	99
M.A. Mohort, I.V. Samarskaya ATP-sensitive potassium channels: classification, structure and functions	109
