

## Contents

V.E. Dosenko, D.A. Mikhalechuk, V.Yu.Zagoriy, N.V. Haitovich, A.A.Moibenko Allelic polymorphism of large multifunctional proteases and its functional meaning	3
O.V. Korkushko, A.V. Pisaruk, E.O. Asanov, N.D. Chebotarev, V.Yu. Lishnevskaya Age peculiarities of cardiorespiratory system reaction on the isocapnic hypoxia	11
R.B. Strutynskiy, S.M. Pyvovar, R.A. Rovenets, O.V. Piskun, L.M. Yagupolskii, O.O.Moibenko Effect of flokalin, a $K_{ATP}$ sensitive channel opener upon the functioning of isolated heart	18
Rozova K.V., Nazarenko A.I., Tavalzshanova T.I., Trepatskaya T.V., Cherkesova M.A. Correlation of tissue respiration and some mitochondria stereometric characteristics in lung tissue under hypoxic hypoxia and its pharmacological modifications	25
L.A. Bugaychenko A.I. Pilyavskii, A.I. Kostyukov Effects of bradykinin and capsaicin injections into feline m. gastrocnemius-soleus on stretch-evoked postsynaptic response in homosynaptic motoneurons	30
V.O. Melnik, M.I. Lysiany, L.M. Belska Effectiveness of Intravenous Immunoglobulin Treatment in Rats with Experimental Allergic Encephalomyelitis	37
V.M. Danilova, K.I. Bogutska, A.M. Shut, Yu.I. Prylutsky Experimental and theoretical studies of pH influence on the atp-hydrolase's reaction of the skeletal muscles myosin in the context of understanding the molecular mechanisms of the muscle contraction	40
F.I. Shchepanskyi, M.S. Regeda The role of prooxidant and antioxidant process in liver tissue of guinea pigs in pathogenesis of allergic alveolitis and their correction by alfa-tokoferol acetate.	46
A.N. Volyansky Assessment of the cerebrovascular reserve in humans	49
S.O. Kovalenko, M.V. Makarenko Central haemodynamics of the persons with different level of nervous processes functional mobility at the conditions of rest, mental and physical loadings	58
V.V. Kravchuk, V.V. Kalnysh Features of adaptation of pilots to the moderate degrees of oxygen insufficiency	63
E.N. Chujan, N.A. Temuryants, M.M. Makhonina, T.V. Zajachnikova Changes of cytokine concentration in rat blood under the influence of hypokinetic stress and low intensity electromagnetic field of extremely high frequency	70
O. S. Zayachkivska, M.R. Gzhegotzky, V.I. Kovalyshyn Oral and gastric diffuse neuroendocrine system: discutable questions of structure and function	79
