V.F. Sagach, V.B. Maxymenko, A.V. Dmitrijeva, J.A. Bubnova, A.J. Boguslavskij, G.V. Knyshov Early marker of myocardial injury of ischemia-reperfused heart in experiment and clinical operations with artificial circulation	3
Sergei Melnik, Michael Wright, Julian A. Tanner, Vera Tsintsadze, Timur Tsintsadze, Andrew D. Miller and Natalia Lozovaya Non-hydrolysable diadenosine polyphosphate analogue modulates signal transduction in hippocampal slices	9
S.A. Talanov, V.F. Sagach, N.N. Oleshko, V.A. Maisky Inhibitors of mitochondrial permeability transition pore take part in prevention of apoptosis of dopaminergic neurons in the mesencephalon in rat	13
A.I. Gozhenko, M.V. Trusova Influence of citostatic iphosphomid on the function of the white rat kidneys	19
G. V. Dovgalets, A. M. Talnov Dependence of muscles-antagonists electromyographic reactions and stiffness of elbow joint on its extension velocity before and after the injection of neurotoxin MPTP	24
E.V. Tukalenko, V.V. Varetsky, A.G. Rakochi, I.R. Dmitrieva, M.JU. Makarchuk Antioxidants modification of ionizing irradiation and additional stress effects upon rats higher nervous activity	33
E.A. Schyglo Influence of carbahol and atropine on the motor cortex neurons in cat during operant reflex	40
G.I. Kokoshchuk, I.G. Kushnir Influence of hydrocortison hydrochloride on the circadian rhythms of excretory function of the kidneys during steady-state (8 days) darkness	47
Zh. A. Kruchenko Genetically determined features (characteristics) of conditioned reflex and locomotor activity of rats of different lines	51
Maria Radziewska, Nejele Jaszczanin, Pawel Radzijekowski Influence of the pancreatic insular apparat hypofunction on the functial respiratory system and oxygen regimens of differ- ent age patients with diabetes mellitus	57
G.V. Korobeynikov, Koniaeva L.D., Rossoha G.V., Medvidchuk K.V., Petrov G.S. Psycho- physiological peculiarities of sexual dimorphism in higher qualificated sportsmen	64
V.S.Michenko, O.N.Lysenko, V.J.Vinogradov Types of physiological reactivity of respiratory system and the features of special work capacity manifestation in athletes	69
L. Gunina, S.Oliynik Oxidative stress and its role in carcinogenesis	78
P. L.Starokadomskyy Mechanism of the buccal permeability of some proteins	90
