

## CONTENTS

V.F.Sagach, A.A.Moibenko, M.N.Tkachenko. To the 85-th birthday of Kostyuk Platon Grygorovych	5
T. Yu. Korol, E. P. Kostyuk, P. G. Kostyuk. Influence of $\beta$ -amyloid peptide on plasmalemmal calcium channels of hippocampal cell culture	10
O.P. Mizerna, S.A. Fedulova, N.S. Veselovsky. The role of N-type high-voltage-activated $Ca^{2+}$ channels to gabaergic short-term synaptic plasticity in cultured hippocampal neurons	17
I.A. Lukyanets, P.G. Kostyuk, E.A. Lukyanetz. Participation of $Ca^{2+}$ -ATPase in calcium homeostasis of cerebellar neurons in crucian	24
S.A. Talanov, A.V. Kotsuruba, Yu.P. Korkach, V.F. Sahach. Oxidative stress in cardiovascular system at chronic deficiency of cerebral dopamine in rats	32
O.M.Tsupykov, T.A.Pivneva, A.O. Poddubna, V.M.Kyryk, O.V. Kuchuk, G.M. Butenko, G.G.Skibo. Migration and differentiation of fetal neural progenitor cells in brain of ischemic animals	41
D.O.Pashevin, V.E.Dosenko, Yu.V.Byts, A.A.Moibenko. Antiatherogenic property of "Korvitin": effect on proteasome activity in aorta, heart and blood cells	50
S.V. Timoshchuk, G.L. Vavilova, N.A. Strutynska, S.A. Talanov, D.M. Petukhov, O.B. Kuchmenko, H.V. Donchenko, V.F. Sagach. Cardioprotective action of the coenzyme Q under activation of its endogenous synthesis during ischemia-reperfusion in old rat heart	58
A.G.Reznikov, Ye.N.Boris, N.D.Nosenko, P.V.Sinitsyn, L.V.Tarassenko, L.I.Polyakova. An enhancing effect of androgen receptor antagonist on induction of ovulation in polycystic ovary rats	64
K. Yu. Sukhanova, V.A. Bouriy, V.F. Sagach, T.B. Bolton, D.V. Gordienko. Effects of $Ca^{2+}$ metabolism drugs on purinergic contractions of the guinea-pig small mesenteric arteries	74
R.B. Strutynskiyi. Cardioprotective effects of drug form of fluorine-containing $K_{ATP}$ channels opener flokalin	83
A. P. Kondratskyi, K. O. Kondratska, R. Skryma, N. Prevarskaya, Ia. M. Shuba. Gender differences in the cold sensitivity: role of hormonal regulation of TRPM8 channel	91
G.Y. Pyshnov, T.M.Kovalenko. Ultrastructural organization of hypothalamus nuclei in rats with experimental chronic stress	100
V.A. Berezovskii, I.G. Litovka, A.S. Kostyuchenko. The effect of preadaptation on the acute hypobaric stress and physiological bone tissue regeneration	109

## REVIEW

I. Nikolsky, T. V. Serebrovska. Role of hypoxia in stem cell development and functioning	116
--	-----

## JUBILEE DATES

I.N.Alexeyeva (on the 75-th birthday Anniversary of the Birthday)	131
---	-----
