

CONTENTS

O.V. Akopova, L.I. Kolchinskaya, Nosar V.I., Bouryi V.A., Mankovska I.N., V.F. Sagach. Cytochrome <i>c</i> as an amplifier of ROS release in mitochondria	3
R.B. Strutynskiy, A.V. Kotsuruba, A.P. Neshcheret, R.A. Rovenets, A.A. Moibenko. The changes of metabolism in myocardium at ischemia-reperfusion and activating of the ATP-sensitive potassium channels	13
A. Kotsuruba, Yu. Korkach, S. Talanov, O. Baziluk, L. Stepanenko, V. Sahach. Arginase-nitric oxide synthase system changes due to adaptation to swimming in adult and aged rat hearts	27
O.S. Bogorad-Kobelskaya, N.M. Zholobak, Z.M. Olevinskaya, M.Ya. Spivak. The antiviral activity of diphenyl derivatives in different model systems	36
I. V. Vereshchaka, A. V. Gorkovenko. Superposition of the motor commands during creation of static efforts by human hand muscles	43
Nadija Fartushok, Oksana Khavrona, Yuriy Fedevych, Oleksandr Sklyarov. Changes in the antioxidant system and level of proinflammatory cytokin IL-1 β in the blood patients of sufferi	51
V.V. Garkavenko, G.V. Storozhenko, O.N. Krasnikova, N.A. Babenko. Correction of age-related changes in sphingolipid content in rat tissues by acid sphingomyelinase inhibition	56
E.G. Shakhova, O.N. Krasnikova, N.A. Babenko. Effects of chronic caloric restriction on the age-associated peculiarities of explorative behaviour in rats	61
T.I. Stanishevskaya, V.I. Sobolev. Characterization of the latent periods of excitation and shortening of anterior tibial muscle of white rats depending on the blood level of triiodothyronine	68
O.A. Panchenko, S.M. Radchenko. Psychophysiological analysis of efficiency of cerebral hemodynamics with dopplerographic and reoencephalographic imaging	76
V.V. Vereshchaka. Features of systemic microcirculation in patients with chronic dermatoses	81
O. B. Vadzyuk. Effects of diazoxide on the mitochondrial membrane potential and ROS generation in rat uterus cells	86
REVIEWS	
I.P. Kaidashev. NF-kB activation under metabolic syndrome	93
JUBILEE DATES	102
